

## Want to know more about breastforms ??

Our forms are the most realistic on the market. They are softer and bouncier than any other forms. They have true "supersoft™" materials used in their manufacturer. DO NOT be fooled into thinking any other form is the same. World-wide **The BreastForm Store** products are synonymous with High Quality, Excellent Service and Customer Satisfaction.

We manufacture almost all our own products in the USA & Canada and have **exclusive** lines you can't buy ANY where else.

### Can you tell the difference between real breasts and OUR breastforms ? NO !

Many cheap forms look real until you move (and they don't) or it comes to the "grope test" and then fail miserably.

**NOT The BreastForm Store** products. Our breastforms are made from such high quality materials that no one will know the difference.

They move bounce and jiggle just like real breasts. They feel so lifelike that we can't tell the difference.

In fact clients have commented that they have had partners "feel them up " and they couldn't tell they were even on ! Once you start wearing them they will feel like part of your self.

### SO. What size do I want to go ?:

The type you select depends on what your frame/chest is like. Generally The larger you are the larger form you would select.

If you are about 5'10"-6' tall, it is suggested you select a larger cup size. Say D or DD

If you are about 5'6" to 5'8" tall it is suggested you select a medium cup. Say B or C

If you are shorter than 5'6" tall it is suggested you select a small cup. Say A or B

### How to measure cup size.

You measure Cup Size from where the bust begins under the armpit , over the nipple to the ribcage in the centre of the chest.

32" band	34" band	36" band	38" band
6"=A	7"=A	8"=A	9"=A
6.5"=Full A	7.5"=Full A	8.5"=Full A	9.5"=Full A
7"=B	8"=B	9"=B	10"=B
7.5"=Full B	8.5"=Full B	9.5"=Full B	10.5"=Full B
8"=C	9"=C	10"=C	11"=C
8.5"=Full C	9.5"=Full C	10.5"=Full C	11.5"=Full C
9"=D	10"=D	11"=D	12"=D
9.5"=Full D	10.5"=Full D	11.5"=Full D	12.5"=Full D
10"=DD	11"=DD	12"=DD	13"=DD
10.5"=Full DD	11.5"=Full DD	12.5"=Full DD	13.5"=Full DD
11"=E	12"=E	13"=E	
11.5"=Full E	12.5"=Full E	13.5"=Full E	

## WHICH FORM DO I CHOOSE ?

**Transform triangle** We find that customers who select these are very happy with them – as they are a cost effective form. They are the firmest of the forms and generally suited to someone who has tight/lean body tissue/form.

**Transform Classic** These are the same shape as the gold – these are very soft but wider than the Triangles and has a softer nipple than the gold. They are a high quality , cost effective form. They are suited to the majority of people who want a natural voluptuous look. They feel incredibly lifelike.

**GOLD LABEL:** The gold label has a more erect nipple and is even softer. It also has a double back system which is more durable for use when going braless. These are suited to those who wish to have the perfect look and feel. They feel unbelievably lifelike and have a full natural shape with a lovely jiggle as you walk. They are perfect for wearing braless. They are slightly more costly however.– but you do get a free tape system.

## BRA or NO BRA ????

GO BRALESS !!!!! You can use our double sided tapes with all our forms. They are best used when using form sizes from 1 up to 8/9. Sizes 10 to 12 usually are too large to do this with.

Skin preparation is simple- wash, dry, Skintac, tapes & position them I place.

Our tapes are waterproof and can also be used with our SWIMFORMS to go braless in swimwear in pools, hot tubs, the ocean , both salt & chlorinated water. THEY REALLY STICK ! you can use the tapes for days, and they are reusable if treated with our Skintac wipes after use.

VIDEO IS AVAILABLE OF THIS.

### **BRA size**

will depend on the form you order but you want to give the appearance of real breasts right ?? There are 2 ways to do this.

Wear bras that completely cover the breastforms. Ie a full cup bra with good straps. I very much suggest you wait until your forms arrive before you get a bra however and then go looking.

Use Chest Tape or Body Shape Tape (we can supply this)to pull your pec flesh together to create a small natural cleavage (like the top part of a natural breast) and then wear you breastforms in a bra that exposes that small amount of flesh. This WILL make it look like real breast with that lovely little bit of breast tissue showing at you neckline. Obviously with this option you have to choose your bra so that it covers the breastform properly.

Pocketed maternity or mastectomy bras do this well. Alternatively you can attaché the breastforms in place with tapes so they DON'T move. We supply these – probably the strongest on the market. You CAN with proper application actually go completely braless.
